

## Total Plant Care

Gen200 was launched in 2012 with the introduction of Control, the Original OSA Formula.

Conceived for the indoor cultivation of flowers and fruit, the benefits of our proprietary orthosilicic acid recipe were quickly embraced by home growers as well.

This inspired us to develop a complete, balanced line of nutrients founded on scientific fact and evidence-based practices.

Gen200 is proud to offer you a plant care line that is complete, easy to use and, most importantly, more effective than any other product on the market today.

DEVELOPED BY INDUSTRY LEADING SCIENTISTS.  
THE NEW STANDARD IN PLANT CARE

*Complete Basic Care*  
*from planting to harvest*

*Essential Extra Care*  
*for all the extra care your plants need*

*Professional Care*

## Complete Basic Care

Gen200's Complete Basic Care provides the total basic nutritional needs of your plants, balanced for every week of the grow. Thanks to its highly concentrated powder formula, you only buy the ingredients you need – all the ingredients you need – and not the water.

### Pink

Nitrogen (N): 16  
Phosphorus (P): 0  
Potassium (K): 0  
with added calcium

### Blue

Nitrogen (N): 8  
Phosphorus (P): 15  
Potassium (K): 19  
plus all essential minerals

### Orange

Nitrogen (N): 4  
Phosphorus (P): 12  
Potassium (K): 29  
plus all essential minerals

### Green

Nitrogen (N): 0  
Phosphorus (P): 0  
Potassium (K): 0  
High concentrate trace elements

## Essential Extra Care

Gen200's Essential Extra Care products help you to keep your plants healthy and strong. Developed by industry leading scientists, they set new standards in plant care.

### Enzyme

Breaks up dead roots in the substrate, giving your next grow space for healthy new roots.

### Calmag+

Creates much greener plants by adding a special mix of trace elements to the standard calcium, magnesium and nitrogen.

### pH-

Allows you to reach the right acidity levels in feeding water so your plants can absorb all nutrients that you provide.

### Lime+

Fast working lime that protects your soil from sudden changes in acidity levels.

## Professional Care

Gen200's Professional Care line consists of 4 products. All products were developed with the professional grower in mind.

### Control

Makes your plants stronger and more resistant against stress, giving you a stable and carefree grow.

### Grow Roots

Provides more and stronger roots for your plants, creating a better, solid foundation for your grow.

### Resin Enhancer

Is a strong biological enhancer that stimulates the production of chlorophyll and the formation of resin and crystals.

### Final touch pk

Helps getting nutrients in the sap flow of the plants while the minerals in the product leads to the best taste and biggest yield.
