

Total Plant Care

**GEN**200

DEVELOPED BY INDUSTRY LEADING SCIENTISTS,  
THE NEW STANDARD IN PLANT CARE

## resin enhancer

NPK 1-0-2

**HIGH  
CONCENTRATION  
50 / 150ML  
PER 100 LITER**

Increases yield

Better taste due to higher sugar formation

Reduces plant stress

Can be used on all substrates

To be used with all watering systems

a strong biological enhancer that stimulates the production of chlorophyll and the formation of resin and crystals. GEN200 Resin Enhancer provides all necessary nutrients, such as trace elements, vitamins, amino, fulvic and humic-acids ensuring a higher resistance, a better smell, taste and higher efficacy. Furthermore the enzymes in the product will break down dead plant material to prevent diseases and deficiencies.

Available in

250 ml | 500 ml | 1 L | 5 L

Total Plant Care

## final touch pk

**HIGH  
CONCENTRATION  
50 / 200 ML  
PER 100 LITER**

Available in

250 ml | 500 ml | 1 L | 5 L

**NPK 0-4-9**  
9,16% phosphorus  
pentoxide (P2O5)

Increases bud size

Provides phosphorus and  
potassium in perfect ratio

Results in a significant increase  
in yield

Can be used on all substrates

To be used with all watering  
systems

a bio-mineral bloom booster which does it all. It makes sure your plants receive the right amount of phosphorus and potassium in the ideal ratio. The bio part in Gen200 Final Touch PK helps getting nutrients in the sap flow of the plants while the mineral booster in the product leads to the best taste and highest yield.
