

DEVELOPED BY INDUSTRY LEADING SCIENTISTS,
THE NEW STANDARD IN PLANT CARE

control

NPK 0-0-1

**HIGH
CONCENTRATION
15 ML
PER 100 LITER**

Regulation of their natural defence system

More resistant against distresses such as extreme heat and cold

Develop stronger stems, leaves and bigger yields.

Can be used on all substrates

To be used with all watering systems

is a proprietary biomix of natural micro-elements supplemented with ortho silicic acid. GEN200 Control ensures the regulation of the growth of the plants and their natural defence system. This ensures that the plants are more resistant against diseases and distresses such as extreme heat and cold. Your plants will root faster, develop stronger stems and leaves, which will result in firmer plants and bigger yields.

Available in

100 ml | 250 ml | 500 ml | 1 L | 5 L

Total Plant Care

GEN 200

DEVELOPED BY INDUSTRY LEADING SCIENTISTS,
THE NEW STANDARD IN PLANT CARE

grow roots

NPK 1-0-0

**HIGH
CONCENTRATION
100 ML
PER 100 LITER**

Increases root development

Stimulates the development of hair roots

Improved stem, root system and plant tissue development

Can be used on all substrates

To be used with all watering systems

a biological product specially developed to give plants a good start. This bio fertilizer should be added during the first weeks growing cycle to stimulate the production of roots by the plant. It should be noted that plants will continue to produce roots until they die, so applying GEN200 Grow Roots to your plants throughout their lives is without a doubt beneficial to them. Use the product and you will be amazed by the extensive root systems that will appear.
