WINTER FROST

#finesseyourphenos

PROMOTE HEAVIER ESSENTIAL OIL CONTENT AND FLORAL MASS EXPANSION.

ACCENTUATES THE CHARACTERISTICS OF EACH PLANT GENOME. UNLOCK TRUE GENETIC POTENTIAL

COMPATIBLE WITH ALL OTHER PLANT FOOD SYSTEMS RECOMMENDED TO USE WITH RUBY FUL#\$% FOR BEST RESULTS.

An ideal ripening solution made to accentuate terpene production and recycle the last remaining energy left in the plant towards bulking fruit development. The winter like effects can be seen through exuberant oil production, and immense purple, red, and burgundy colouration shifts.

When dosed properly, the affected plant system uses its remaining energy to defend against frost and ensure swollen fruit pods are available for next year's sowing.

- USE A MINIMUM OF 3 TIMES PER WEEK.

- USE IN COMBINATION WITH RUBY FUL#\$%.

All measurements = ml/10 liter

WINTER FROST	WK 1	WK 2	WK 3	WK 4	WK 5	WK 6	WK 7	WK 8	WK 9	WK 10	WK 11	WK 12
8 Week Flower							27ml	Flush				
10 Week Flower									27ml	Flush		
12 Week Flower											27ml	Flush

RUBY FUL#\$\$%

#\$\$%Kfakefulvics

WILL INCREASE CATALYTIC EFFECT IN PROCESSES, RELATING TO ELEMENTAL TRANSFER WITHIN THE PLANT SYSTEM.

WILL REDUCE SALT BUILD-UP WITHIN GROWING MEDIUMS AND MINERAL BASED FERTILIZER SYSTEMS WITHOUT INCREASING EC/PPM LEVELS.

CONDITIONS TAP WATER AND PLANT IONOSPHERE FOR OPTIMAL NUTRIENT UPTAKE.

INCREASE ELEMENT TRANSFER WITHIN THE PLANT SYSTEM

- USE DURING ALL STAGES OF GROWTH AND FLOWERING

Todas las medidas = ml/10 litros

RUBY FUL#\$\$%	DAY 1-2	DAY 3-7	WK 2	WK 3	WK 4	WK 5	WK 6	WK 7	WK 8	WK 9	WK 10	WK 11	WK 12
8 Week Flower	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml				
10 Week Flower	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml		
12 Week Flower	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml	13ml

Officially registered as a Molybdenum fertilizer. Ruby Ful#\$\$% is rumored and humored to encourage plants efforts' to increase yields (#), produce higher ROI (\$), and enhance overall quality (%).

This super-complexity is a house favorite as the uses seem to be limitless without detrimental effect... no matter what stage of plant growth.
