

HPSKILLER 660W

ENGLISH

High output

High intensity

Full Spectrum

High efficacy

2.75 $\mu\text{mol/s/W}$

Compatible with

Electronic Ballast

Protection

IP65

Replaceable bars

The HPS KILLER 660, a hybrid system without integrated LED driver, can be powered by conventional digital ballasts, offering an ideal solution for replacing aging HPS lighting. Easy to install, it ensures optimum coverage of the growing area with homogeneous luminous flux and light quality of up to $2.75\mu\text{mol/W}$.

TECHNICAL DATA

Spectre : Full Spectrum

PPF : 1832.7 $\mu\text{mol/s}$ depending on ballast used

Efficiency : 2,75 $\mu\text{mol/s/W}$ depending on ballast used

Installation height : 30 - 60 CM

Operating temperature : -20°C - 35°C

Light sources : 2250 x LM281B+ PRO + 90 x SMD3535 660nm

Beam angle : 120°

Power Factor : > 0,9

Warranty : 3 ans

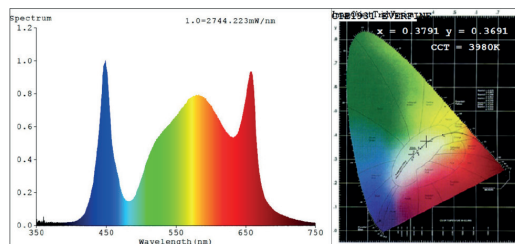

Model : 6 bars

Dimension : 1100 x 1100 x 90 mm

Weight : 10kg

SPECTRUM GRAPH

Replace your hps and
keep your ballast !

Upgrade your HPS system to LED system with HPS Killer ! Use your 600W digital ballast and say Goodbye to your

HPS bulbs. Superplant recommends using its 600W Digital Ballast in combination for best performance.
